

Sustainability Statement

ACWA Power is committed to providing reliable, affordable, and responsible sustainable energy and water solutions. Our initiatives align with the UN's 2030 Agenda and Global Compact principles.

Focus Area	Statement
Environment <ul style="list-style-type: none"> Climate change Environmental Management – effluent, waste and pollution Water Management Biodiversity 	<ul style="list-style-type: none"> Accelerate the transition to renewable energy sources, optimise resource utilisation, and enhance energy efficiency to mitigate climate change. Implement robust environmental management systems to minimise operational impact. Prioritise waste reduction, reuse, and recycling to manage waste generation. While we are expanding our assets, we ensure to protect the ecosystems and avoid, minimise or restore biodiversity loss.
Social <ul style="list-style-type: none"> Human capital development Occupational health and safety Labour and human rights Local communities 	<ul style="list-style-type: none"> We aim to achieve zero harm across the organisation with implementation of the highest occupational health and safety standard. We ensure to safeguard and strengthen labour and human rights, to promote safe working conditions, mental health and well-being and to give our employees good learning opportunities in their work. We foster sustainable community development by actively engaging with local stakeholders and investing in local projects.
Governance and Compliance <ul style="list-style-type: none"> Corporate behaviour Anti – corruption Code of conduct 	<ul style="list-style-type: none"> We maintain zero tolerance for bribery and corruption, conducting business ethically and in full compliance with all anti-bribery laws. Our employees embody our ethical values and uphold the highest standards of integrity and professionalism.
Economic Development <ul style="list-style-type: none"> Innovation and R&D to reduce the cost of product 	<ul style="list-style-type: none"> We are committed to delivering reliable, responsible, and economic power and desalinated water solutions to our stakeholders, driving economic growth. We strive to develop local content by engaging local skills and local suppliers within our operating markets.

ACWA Power and its wholly owned subsidiaries are fully committed to integrating sustainability into all operations. This underpins our dedication to operational excellence and sustainable development.
